## Food Processing Machinery 食品加工机械

### PRESENTATION, ORGANIZATION AND MARKETING OF O.M.I.P. Limited Company

The O.M.I.P. Company has been specialized in the food processing sector since 1971 and it has reached high success in manufacturing machinery and plants suitable for fresh fruit processing. In particular it is specialized in manufacturing **stoning machines for peaches, apricots, plums** and the like.

Its organizing ability and the quality of its products have enabled it - since its first year - to make its name known on all world markets from **the Italian one to the European ones**, in particular in the most important countries such as: **Greece, Spain, Southern America, California, Michigan and CHINA.**

We have a chain of sales Agents spread around the world that assure to our customers a continuous Technical Assistance.

In fact, also in China, our sales Agent that assures the Technical Assistance to our Chinese customers is:
